The map is a detailed topographic representation of the Nogent-sur-Vernoy region. It features contour lines indicating elevation, with major peaks around 400m and 450m. The town of Nogent is prominent on the left, with its urban layout and railway lines clearly visible. To the right, the Bois du Defois is highlighted in green. A red line with three dots, labeled 'Captages', indicates the water collection points for the Bois du Defois. The map also shows various roads, including the D107 and D246, and several smaller settlements and hamlets like Courcelles, Poinson-les-Nogent, and Virv-les-Nogent. The terrain is characterized by rolling hills and valleys, with the Seine river visible in the upper right corner.
