This is a detailed cadastral map of the Saint-Germain d'Ectot catchment area. The map displays numerous land parcels, many of which are numbered. Several colored lines delineate different protection zones: a red line for the Immediate Protection Perimeter, a blue line for the Sensitive Rapproched Protection Perimeter, and an orange line for the Complementary Rapproched Protection Perimeter. Buildings are represented by red rectangles for permanent structures and purple rectangles for light constructions. The map also shows the location of the water treatment plant (Usine de potabilisation) and the commune boundaries. Various geographical labels are present, including 'AURSEULLES', 'Sous-bourg d'Ectot', and several 'ZE' (Zones d'Exposition) designations. A legend in the top right corner explains the symbols used, and a scale bar and north arrow are located in the bottom right corner.
