It shows a cross-section of the ground with various layers. The piezometer tube is shown with its internal diameter (D_i) and external diameter (D_e). The tube is labeled 'Tubage plein' (solid tube) and 'Tubage crépiné' (perforated tube). The diagram also shows the 'Argile' (clay) layer and the 'Gravier calibré' (calibrated gravel) layer. Dimensions are indicated: D_p (diameter of the protection), H_t (height above ground), H_p (height above ground), H_w (water level), D (diameter of the tube), and P (total length of the tube).</p> </div> </div> | | | | | | Prof. | P | 15,0 m | Diamètre | D | 115,0 mm | En cours de forage | H _w | - m | Après équipement | H _w | 2,1 m | Diamètre intérieur | D _i | 60,0 mm | Diamètre extérieur | D _e | 52,0 mm | Crépines | Fente | 0,5 mm | | De | 3,0 à 15,0 m | Bouchon d'argile | De | 0,5 à 2,0 m | Hauteur cimentation | De - à - | m | Gravier calibré - / - mm | De | 2,0 à 15,0 m | Tête métallique | <input checked="" type="checkbox"/> Non | Cadenas | <input checked="" type="checkbox"/> Non | Bouche à clef | <input checked="" type="checkbox"/> Oui | Regard béton | <input checked="" type="checkbox"/> Non | Diamètre protection | D _p | - mm | Hauteur hors sol | H _p | 0,0 m | Profondeur Eau - Début réception | - m | Profondeur Eau - Fin réception | - m | Durée réception | - h |
